- Merck Vaccines
> 1 Dose HPV Vaccination
Females 13-17 years old, 2015

> 1 Dose HPV Vaccination
Males 13-17 years old, 2015

Purpose of HPV Advocate – Help pediatricians and pediatric teams in the Intermountain West to gain a better understanding of the impact of HPV-related cancers and pre-cancers on patients.

HPV Advocate – An individual who has been diagnosed with an HPV related cancer/pre-cancer or an individual who has been impacted by a family member with an HPV-related cancer.
HPV Advocate Activities

- The Intermountain West HPV Vaccination Coalition will work to find an HPV advocate who will be assigned to your practice.

- This advocate will meet with your team two times over the next six months.

- The advocate will share their experiences with HPV-related cancers with your team in small meetings.

- **Discussion:** Options for regions where we are unable to find an HPV Advocate (webinars, conference calls, etc.)?
Hub and Spoke Resources

- We can help find local HPV advocates in your region.

- We can provide support through monthly conference calls and in-person meetings.

- We can connect you with the most up to date HPV vaccination resources for primary care providers.

- We are an outlet for HPV vaccination news and tools.

- We can facilitate sharing of HPV vaccination success stories and effective HPV intervention strategies among coalition members.

- We can provide you with additional one-on-one support.
ADDITIONAL HIGHLIGHTS – HPV COALITION WORK

- **Coalition Activities**
  - Monthly Meetings via Tele-conference & In-person Meetings
  - Rural Working Group
  - Ongoing Networking

- **Current Research Projects**
  - Multi-level HPV vaccination intervention for rural primary care practices
  - HPV Oropharyngeal Cancer and HPV Vaccination Dental Student Survey
  - HPV Vaccination and Education in Dental Practices Pilot Study
  - Utah Statewide Immunization Information Systems Registry (Missed Opportunities & Vulnerable Populations)

- **Analyses/Writing**
  - Coalition Survey and Focus Groups Manuscript
  - Dental and Dental Hygienist Survey Manuscripts
  - HPV Vaccination Provider Survey – Utah
  - Community Faces of Utah Focus Groups & Surveys
Survivor Videos

A Survivor’s Story:

QUESTIONS? THANK YOU!

WE ARE HERE TO HELP YOU REACH YOUR GOALS.
